

# Personal Portfolio Website - Product Requirements Document (PRD)

## 1. Overview

### Product Name

Personal Portfolio

### Purpose

Create a modern, minimal, professional portfolio website that showcases:

- Professional experience
- Technical skills
- Projects
- Educational background
- Contact information

The website should establish credibility as a Software Engineer and serve as a professional online presence for recruiters, hiring managers, collaborators, and fellow engineers.

---

## 2. Objectives

### Primary Goals

- Build a strong personal brand
- Showcase engineering experience and projects
- Improve discoverability through SEO
- Provide an easy way for recruiters and collaborators to reach out
- Demonstrate frontend engineering and UI/UX capabilities

### Non-Goals

The website is NOT intended to:

- Act as a startup landing page
  - Market products aggressively
  - Contain a blog in Version 1
  - Include complex dashboards
  - Include user authentication
-

## 3. Target Audience

### Primary

- Recruiters
- Hiring Managers
- Engineering Leads

### Secondary

- Developers
  - Hackathon Organizers
  - Potential Collaborators
  - Startup Founders
- 

## 4. Design Principles

### Visual Direction

Minimal

Professional

Modern

Elegant

Readable

### Design Requirements

- Dark Theme
- Light Theme
- Theme Persistence
- Clean Typography
- High Readability
- Consistent Spacing
- Mobile First

### Avoid

- Particle effects
- Excessive gradients

- Neon colors
  - Heavy animations
  - Overly artistic layouts
  - Template-style portfolios
- 

## 5. Functional Requirements

### 5.1 Navigation

#### Features

- Sticky Navbar
- Active Section Highlight
- Smooth Scroll Navigation
- Mobile Menu

#### Sections

- Home
  - About
  - Experience
  - Projects
  - Skills
  - Education
  - Contact
- 

### 5.2 Hero Section

#### Content

- Full Name
- Role
- Short Introduction
- Location
- Current Company
- Resume Download
- Contact CTA

#### CTA Buttons

Primary: View Projects

Secondary: Contact Me

## Optional

- Availability Status
- 

## 5.3 About Section

### Purpose

Provide a concise professional summary.

### Content

- Professional Introduction
- Engineering Interests
- Areas of Expertise

### Metrics Cards

Examples:

- Years of Experience
  - Projects Built
